Gov. SEYMOUR'S MESSAGE.—The Inaugural Message of Gov. Seymour, of New York, was delivered to the Legislature January 6th. He attributes the failure of the Union arms to the interference of one branch of the Government with another; insists on maintaining the separate jurisdictions of the State and Federal Governments, and declares his intention to prosecute all those who have had any part in illegal arrests. He thinks the Administration has turned the horrors of war on the loyal North by its arbitrary and uncalled for acts. He says that it is impossible for the great Central States to adopt the extreme platform of the 'Abolitionists' and denies that it is necessary to "subjugate" the South in order to restore the Union. The following are his views, in his own language, on the subject of consolidating the Union sentiment:

There is but one way to save us from demoralization, discord and repudiation. Our Union must be restored complete in all its parts, no section must be disorganized beyond the unavoidable necessities of war. It cannot be so united upon any bloody, barbarous, revolutionary or inconsistent scheme looking merely to the gratification of hatred, purposes of party ambition or sectional advantages. Let not one demand that the blood of his neighbor shall be shed. Let no one think that the people who have refused to yield this Union to rebellion at the South, will permit its restoration to be prevented by fanaticism at the North.

In conclusion he says the condition of our country is not hopeless, unless it is made so by the passions and prejudices which are inconsistent with the Government of a great country. We must accept the condition of affairs as they stand at this moment. The fortunes of our country are influenced by the results of battles. Our armies in the field must be supported. All Constitutional demands of our General Government must be promptly responded to. Under no circumstances can the division of the Union be conceded. We will put forth every exertion of power, we will use every inducement to the people of the South to return to their allegiance consistent with honor, we will guarantee them every right, every consideration demanded by the Constitution and by that fraternal regard which must prevail in a common country, but we can never voluntarily consent to the breaking up of the Union of these States or the destruction of the Constitution.

THURSDAY MORNING, FEB 12, 1863

Shaking off the Corruptionists.

The California press with one voice calls upon the Legislature of that State to shake off the men connected with secret attempts at corruption, of which so much has been said It is laid down as a fact that the interference of the Federal officers in a State matter must be rebuked, and their candidate defeated, or the Union party will be wrecked The people of that State are more influenced by the newspaper press than any other and, if no proper action is taken in the matter it will be found acting almost as a unit against the men who have been connected with the crime and any party which may tolerate them in its ranks

To any one who has watched the growth of the Free State sentiment of California, it is intensely mortifying to behold a repetition of the old practices of democratic times by those whose success was almost solely owing to democratic corruption Commencing at almost nothing, the Republicans have come to have undisputed sway in all the branches of the State government, and to be consistent with their professions they must practice that which they condemned the democracy for not having, viz common honesty in managing public affairs Without they do so, we look for a popular revulsion which will bury their organization beyond any possibility of resurrection. We have strong hopes that there are enough honest men in the California Legislature to crush the wriggling vipers whose very touch is fatal to political integrity, and consequently to political success

The Republicans and Unionists of this State may well take heed of the hideous warning afforded by our Southern neighbor With honest leaders, and the voice of faction subdued by the indignant clamor of the patient and long suffering people, we can carry in in future elections, as in the last, an unposing majority of the voters of this State with us; but we cannot take in the same boat with us the political vampires who suck their country's life blood from her extremities while traitor's strike at her heart, nor those political corpses, who are dead to the glories of that triumph which does not advance their personal interests. No more can we be expected to endorse rascality in official station, albeit it may be done under plea of ignorance or may be screened up by a combination of interested parties We must shake off these men and seek among the people new leaders, retaining those of experience who have proven themselves honest and capable

With such sentiments inspiring the Unionists, they can march to assured victory and to a victory which will not be rendered useless by traitors and corruptionists in their own camp. As a preliminary to carrying out this idea each neighborhood should weed out, in its civic assemblages, all whose general conduct gives rise to the belief that they are working for their own or another's interests, and by thus preventing their intrusion into the minor political meetings they are stopped from influencing those which are designed to represent the popular opinions of the counties or State It must be ever borne in mind that the people, as a mass, have the power to correct public evils, and if they do not do so, they are measurably to blame It is true they cannot be censured if a public officer becomes a public swindler, but they are to blame that he ever had a chance to swindle The times demand that the people should more attentively than ever study their rights and powers, and the means to enforce the first by organizing to properly use the last The first lesson to learn, in order to do this, is to sink all factiousness and personal feeling whether of preference or taste

THE DIFFERENCE – Oregon's quota of the United States tax, which she has assumed to pay, is about $55 000 If this amount is paid in greenbacks, the *Statesman* estimates that the nation will suffer a loss of $11,666 66, and receive only $23,333 33 instead of the full amount due her If men may cheat each other and counties the State why not the State the Union' It is absolutely necessary to have uniformity in the payment of taxes, and we hope it will be enforced

CENTRAL PACIFIC RAILROAD —The contract to do the earth work on the first eighteen miles of the Central Pacific Railroad, from Sacramento to Grider's Station, has been let. It includes, also, the bridging of the American river and putting down the iron furnished by the company all for $400,000

HIDDEN ROCK —The rock on which the *Noonday* was lately wrecked, lies four miles off the North Farralones Its exact locality has been ascertained, and it will be shortly marked with a buoy There is but four fathoms of water over it at high tide

SALT —The *Golden Age* says that some persons engaged in excavating a cellar in the hill back of Lewiston found a quantity of salt existing in crystal form Its value can scarcely be computed, if it should be found in quantities to justify working

RESCUED —The U S steamer *Saginaw* has been entirely rebuilt, at the Mare Island Navy Yard, and will cruise off the coast of Lower California and Sinaloa

PHILANTHROPY —The name of Mr Beeson is pretty familiar to the people of Oregon of late years he has been traveling in the Atlantic States, preaching all the wrongs of the Indians which he characterizes as worse than those of the negroes of the South A part of the time he has been accompanied by a pretty Indian girl named Lizzie Quaw who has a talent for singing But the scheme of giving concerts with the Indian girl was financially a failure so Mr Beeson applied to Mr Dole Commissioner of Indian Affairs to devote some of the money belonging to the Indian Department to the assistance of the girl and himself In prosecuting the part of its propagation has peculiar objections in addition to the rights of the Indians The Commissioner declined to give any money from the funds of his office, but proposed to see the girl provided for He states that there is no law of Congress justifying the practice of subsidizing of Indian female warblers or itinerant lecturers on Indian affairs Mr Beeson comes back sharply reflecting on the case of Dr White who was appointed to transact some important business connected with the Department, for which there was no authorization by Congress and delicately hints that he has as good right to claim some of the national funds as any other unauthorized man The Commissioner remains inexorable and Mr Beeson will have to look elsewhere for means to carry out his philanthropic ideas Some years since he succeeded in coaxing Horace Greeley into the support of an arrangement by which all Indian appropriations were to be expended under the advice of a National Indian Aid Association but the seedy philosopher of the *Tribune* found that the modest proposal to usurp one of the functions of the Government was an intolerable excise ridiculous than opposition so he dropped it The plan of this novel Association was the management of its affairs under a board of regents, resident in New York and demanded the payment of all Government appropriations into the hands of these worthies There was a certain pecuniary method in the madness of these people which squinted at speculation or peculation, whichever it may be called

DIGGINGS NEAR WHISKY FLAT —The new diggings, on the Whisky Flat trail to Oro Fino, are situated in a country where the hills are low and the ravines are filled with fallen timber, or log timber as it is called over which has accumulated the decomposed vegetable matter of ages Except the running out of the highest ridges, the ravines are flat and the rock only makes its appearance in the banks There is much decomposed quartz mixed with the earth and the bed rock is granite The growth of timber is generally small and but little of it is of any use for lumber The gold is coarse resembling that of Elk City, and is valued at $17 an ounce These discoveries are located on the trail where thousands have passed on the road to Oro Fino, going further and finding worse The reports from these new diggings do not indicate their extent, and time alone can tell whether there will be room for many or few miners Although the Oro Fino district is the oldest in the Nez Perces mines, but little has been done to prove the extent of its resources and new and valuable discoveries may be frequently expected there

MEETING AT STEILACOOM —The citizens of Steilacoom, Washington Territory, met in that place on the 31st of January to give expression to the sentiments of the community in relation to the recent execution of J B Bates for the willful murder of Andrew F Byrd Resolutions were passed justifying the summary execution of Bates and condemning the dilatoriness and inefficiency of the courts as the cause of an increase in crime The meeting also declared Byrd's memory free of the imputations cast upon it by his murderer, and deplored the assassination of B F Kendall in whose ability and integrity the utmost confidence was felt

CONTINUED DESERTIONS —Desertions among the soldiers at Fort Steilacoom continue to be frequent The Puget Sound *Herald* says that, on the 28th of January Mr Sherwood of the saw mills at North Bay, came to Steilacoom in a small boat with an Indian to help navigate it But having to remain all night he left the Indian to guard the boat During the night three soldiers came down to the beach and took the boat, and all the provisions in it, and compelled the Indian to accompany them They then set sail down the Sound and, after they had got away far enough to consider themselves safe from pursuit, set the Indian ashore No trace of the fugitives had yet been found

LITERARY AFFAIRS AT CANYON CITY —A correspondent of the *Mountaineer* writing from Canyon City says that there is a debating society public lecture hall and writing school and the people are about getting up a reading room and a public library All these things speak well for the future of the mines at that place The labor of men who read books and improve their minds usually accumulates money while that of those who do not is generally squandered to no purpose

SNOW ON THE COLUMBIA —At the Cascades the snow was two feet deep yesterday at noon and it was still falling with unexampled rapidity The snow was falling at Dalles but we are not informed of its depth The storm has doubtless reached Walla Walla and above We do not apprehend much suffering as the weather is not sufficiently cold to cause much inconvenience

PORT BOWEN —Several improvements of importance are to be stationed at Port Blakely shortly Three of them are to be infantry and three cavalry

APPOINTMENT —J P Stowell has been appointed Post master at Franklin Washington Territory

MRS FORREST —Mrs Forrest by the final decision of the Court of Appeals of New York receives $40 000 accumulated alimony from Edwin Forrest and hereafter the sum of $4 000 a year

Miscellaneous Paragraphs

Matrimony has been declared to be having a right to think to light to walk to talk that on walking across a floor is gracefully as well by a man as a woman

Bibles that are in danger of being published in Boston

It is said a young child asleep in its cradle was killed at the battle of Fredericksburg by a ball which burst in the room and struck it

An expensive novelty for a Christmas tree is the latest invention It is a musical tree that waltzes round to its own instrumental music The machinery is concealed by the trunk which is covered with moss the candles are attached to sockets prepared for them

At a religious public meeting not long ago, a speaker was all striving the ignorance that prevailed in the country and said that he had to travel going with tracts into the log house of a dweller on the Ohio asked the woman if they had the Gospel there She said No but they have a dreadful bad about four miles below

Those undeds who palmed off on the Government ten vessels for Banks expedition and thus imperilled the lives of hundreds of men and the success of the movement should meet with instant and severe punishment If this act of justice cannot be executed we may as well acknowledge ourselves under the rule of rogues and plunderers

The Pacific Mail Steamship Company have made a rule that shippers of treasure shall hereafter furnish its San Francisco agent with duplicate invoices setting forth the number of bars marks fineness value and all other particulars in relation to the treasure It appears that some persons have taken advantage of the Company to ship larger sums than their invoices indicated thus cheating it out of its dues

NEW SILVER —A new vein has been discovered eighty miles south west of the South Fork mines Recent disasters, near the entrance of San Francisco Bay are producing the circumspection which will insure seamen against many dangers in future

Legal Tender Notes this Day—65 cents.

CIRCUIT COURT.—Tuesday, Feb. 11th.—Judge Shattuck, presiding. The following cases were disposed of during the day:

S. Sherlock & Co., *vs.* A. J. Cain, judgment for plaintiff, $209 15.

W. P. Doland, Treasurer, *vs.* B. Shepard, *et. al.*; defendants demurrer over-ruled, to which defendant Wimple excepts and abides by demurrer. Judgment against Wimple for $1,029 86. Defendant Austin allowed until the 13th to answer.

Wm. Gatton vs. J. W. Conner, *et. al.*; verdict for plaintiff and damages assessed at $1.

State of Oregon *vs.* John P. Dennison; jury out.

The following cases have been set for trial to-day: G. W. Vaughn *vs.* City of Portland; Sherry Ross *vs.* D. Simon, and State of Oregon *vs.* John P. Dennison.

SENT UP.—On Friday night a young named Edwin Bernes dipped his hand into the till of the Monitor Hotel, at the corner of Front and Morrison streets. He was detected with some of the money in his hands, but allowed to depart without being turned over to the authorities. But afterwards the proprietor of the house, Mr. Cummins, thought he ought to be punished; so he put Deputy Marshal Brannan on his track and arrested him on Tuesday evening. On being confronted with the witness to his pilfering propensities, he said, "Can you swear that I am the man who robbed the till?" The witness replied, "Yes; you don't deny it, do you?" Then said the injured man, "I will *try* and deny it for a little while." But his denial did no good, and Mr. McCoy sent him to the county jail for three months.

SNOW BALLING.—The youthful practice of snow balling is a very innocent amusement, and one which was much practiced yesterday; but some malicious fellow took advantage of the general license and inclosed a rock in a snow ball, with which he brought one of the snow-ballers to the ground. In view of the great facility which snow-balling affords for this species of revenge, it had better be dropped altogether. It is in no case funny to passers-by, and is liable to produce bad feeling when persons are hit who don't wish to take a hand in the sport.

SLEIGHING.—A great abundance of snow has led to but little sleighing; although many modest attempts at sleddidg are noticeable. One party was particularly conspicuous in a sled, of which the tintinnabulary accompaniment was produced by a cow-bell. This particular party had that "spur in the head" which horsemen say is worth a dozen on the heel.

FINED.—William Barlow and J. P. Osborne were fined $10 a piece and costs yesterday, by the Recorder, for indulging in a personal difficulty. Mr. Barlow was accused, and convicted, of using indecent and threatening language towards Mr. Osborne, besides being violent and disorderly in his conduct; while Mr. Osborne was only violent and disorderly in his conduct.

CITY CODE.—Mr. J. F. McCoy, the City Recorder and acting Mayor, has completed a digest of the ordinances of the city, for his private use. It is particularly desirable that the entire legislation of the Board of Common Councilmen should be codified by authority.

NEW MODE.—Among the novel methods of sleigh-riding yesterday, we noticed one sled drawn by a young steer and another by a dog. The sagacious animal appeared delighted with his new occupation.

NO CONNECTION.—There was no connection south of Oregon City, last night, by the southern mail. The heavy snows have probably impeded travel.

FAVORS.—We are under obligations to Senator Harding for the *Appendix to the Congressional Globe* for the Second Session of the Thirty-Seventh Congress.

THE WINTER IN SAN FRANCISCO.—Every one visiting San Francisco, should take a look at the Mammoth Clothing Stores of Heuston, Hastings & Co. We are assured that the trade of the firm is immense. Their Stores are thronged with purchasers all the time, and their Salesmen are gentlemanly and polite to all classes.

Portland R. A. Chapter, No. 3.—There will be a stated convocation of Portland Chapter, No. 3, on Thursday evening, Feb. 12th., at 7 o'clock.

Members and sojourning companions are requested to attend punctually.

Coughs.—The sudden changes of our climate are causes of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stage of the disease, recourse should at once be had to *"Brown's Bronchial Troches,"* or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. See advertisement. dec16daw3m

Storage.—THE FIRE-PROOF STONE WAREHOUSE, opposite Ensetts House, is the only building, "not made of wood," at the Dalles, where goods are taken on STORAGE. All other houses that take goods on storage are *wooden buildings* and in *exposed* parts of the town, liable to the risk of fire. The subscriber assures his patrons that his charges are but $1 50 per ton per month storage and although storage in wooden buildings is $1 00 per ton, yet the public cannot fail to perceive the advantages the subscriber possesses over other warehouses of this place.

Dalles, Jan 20, 1863.1m RASEY BIVEN.

White's Fever and Ague Drops—For the cure of AGUE, PANAMA FEVER, NEURALGIA and GENERAL DEBILITY.

This medicine has been used in private practice for many years with great success. Indeed, in no instance has it failed to effect a speedy cure, in Ague especially, one bottle having been found sufficient in most cases and in none are more than two bottles required.

A great number of testimonials could be given to verify these statements, but the proprietor prefers relying upon the merits of the medicine alone. A cure is guaranteed in nine cases out of ten.

Prepared only by ROBERT WHITE, Chemist and Druggist, Main street, Placerville, and Broadway, Upper Placerville. For sale by all respectable Druggists throughout the State.

DOCTOR VAN ZANDT,

CONSULTING PHYSICIAN & SURGEON,

Office, Corner of Washington and Sansome streets, San Francisco.

The GREATEST Discovery of this CENTURY in the ART of PRACTICAL MEDICINE.

The Mysterious Problem of Natural Electricity Developed and Applied to the Cure of all Nervous and Spinal Diseases.

THE THEORIES OF THE PAST SUCCESSFULLY APPLIED in the cure of [illegible] proves the great [illegible] and the [illegible] and [illegible] fundamental derangements of the [illegible] carried that great principle of [illegible] no cure [illegible] and [illegible] sanity must have [illegible] lasting disease.

Too Much Cannot be Said

In the praise [illegible] highly probable that no health is in an exact equilibrium of the electric principles, and should this exact equilibrium be broken [illegible] restore it, until the cause be negatively annulled which alone [illegible] positively changed—to that the current finds it, and in the [illegible] of forces going on in the system. You must [illegible] and in order that the tissues of the body should be [illegible] to remedial agents, we must first restore [illegible]

Awaken the Magnetic Life within us

The spinal and sympathetic nervous systems. Believing as I do most firmly in the [illegible] of the earth, with the different powers we have to deal with and disease, I am [illegible] to take advantage of the Press through which I [illegible] to the subject, that great cures may be [illegible]

No Compromise with Disease.

Give the body strength, and Nature will relieve herself. Purify the blood, [illegible] the stomach, liver, heart, kidneys and all the minor [illegible] into active ELECTRICAL existence, and [illegible] the blood, the nerves, the disjointed, [illegible] help the dyspeptic and the invalid revive under [illegible] influence.

To the Ladies of California.

Dr Van Zandt's [illegible] many [illegible] of women, both in family and office practice, keeping to the correct view of the origin of all their maladies. Ladies can consult him with entire confidence, as [illegible] no speculator upon human ills, but is proud to [illegible] the only authorized legitimate professional gentleman in California, who relies on essential remedies, the use of which are the best [illegible] of the sex. *No high specialties are [illegible] attained nervous organism together with the great vocation in life,* which [illegible] able to [illegible] those silent complaints which they keep [illegible] and so long. No sexual disorder [illegible] beyond the [illegible] curative; for he can now [illegible] the strength [illegible] restore the wasted tendency of the body, awaken the [illegible] and [illegible] ordinary errors and [illegible] the drains which [illegible] much anxiety; cure those protean maladies which have so long

Baffled the Skill of Physicians.

Develope appetite, life and animation, dispel nervous headache, sinking at the stomach, wandering pains, wasting away of a rough, [illegible] debility and listlessness, hectic cough, sleeplessness, impaired [illegible] and that general depression of life's powers, which go to render her life a misery and death a boon. Dr Van Zandt, with his new method of exciting the Electro-Galvanic current, together with such remedial measures which are adapted to the necessities of California, will assure you of a complete and radical recovery of all bodily and mental infirmities, and will restore you to fruitfulness, and spare you a blessing to your family and society.

All the world over

wherever disease exists, whether special to the soil and climate or common to all regions—epidemic or casual, acute or chronic, contagious or non-contagious—it is necessary to restore the ELECTRO-GALVANIC equilibrium, especially in California, and it is to give rest to the starving. This statement is based upon a series of facts extending through many years, and verified by hundreds of patients; so that its principle [illegible] no risk or experiment, no result of any well known kind, rests upon a rare and unassailable foundation. The [illegible] which underlie the world-wide reputation of Electricity for the cure of all nervous states of the body, faulty digestion, mental and general debility or prostration, coughs, asthma, wandering pains of a rheumatic, gouty or neuralgic character, and all forms of disease, the result of scrofula or each [illegible] of body.

None Need Despair of Relief.

If you have [illegible] which will not heal—poisons that cannot be removed—[illegible] which you cannot shake off—loss of power which you cannot explain—depression of spirits which weigh you down—wakefulness that knows no sleeping—business that languishes for want of energy—a void which no society can fill—*suspicion which no assurance can allay*—fly to Dr Van Zandt, for his great success and the safety with which he administers his new method of electrical excitation, together with his remedies which are adapted to the requirements of climate and constitution, will assure you of a complete and radical removal of all bodily and mental infirmities, within the scope of science and time to remove.

The Eye and Ear Diseases.

It must not be forgotten by the eye and ear sufferers that Dr Van Zandt has made these afflictions an especial study, and that he is the only Surgeon in our State who has a diploma for that branch of practice. Very many of the eye and ear troubles are purely deranged nervous action, and are cured by his electro-galvanic battery as amaurosis, squinting, cataract, floating specks before the vision, twitching of the eyelids, nervous deafness, roaring and buzzing noises in the ears, giddiness, etc. All operations successfully done *on these delicate organs of sense.*

SEND FOR A CIRCULAR.

DR. BAKER'S
PAIN PANACEA.

Is composed entirely of healing gums, and vegetable oils and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate, to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it for the following diseases: If they are not satisfied with its healing properties, the money will be cheerfully refunded by the agent where the medicine is for sale.

If you have pain in the stomach or bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound, bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely, and take a dose of it internally, morning, noon and night; it will not only cure the pain, but will remove the cause of the disease.

If you have the Dyspepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea, to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhœa, or a relaxed state of the bowels, take a dose of Pain Panacea, and they will soon be restored. If you have a painful swelling, bathe the parts freely, and you will soon relieve pain, and the swelling will be reduced.

If you have a severe tooth-ache, apply the Pain Panacea on a piece of cotton and bathe gum at the same time; it will stop the pain instantly.

If you have a pain in the Breast, Side, Back or Kidneys, bathe the parts affected morning and night; at the same time take a dose of the Panacea internally.

If a Mother has a caked breast, apply the Panacea at bed as it can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or galls upon your horse, apply the Pain Panacea; it will take out all the inflammation and heal the sore in a short time.

Emancipation Hymn for 1863

Hail to the brightness of Liberty's morning
I am still to earth in an anthem of praise
Freedom's glad dawn to the slave in his bondage
Light to the captive, its sunlight of promise
See how the gilding the flame of her banner
Back to the sea echoes, surge for surge
Brighter is burning the flame of Liberty
Music for sweeter than angels employ

Cry out and shout, ye children of sorrow
The gloom of your night has passed away
Bright is the dawn which has broken on our vision
Fruition a new glorious ordeal with day
Let people and nations at need from the chains
Rejoice in the severance of Slavery's chain
While voices and instruments mighty resound
Sound praises to him [illegible]

Glory to God in the highest be given
Who hath through the carnage a pathway opened
Where those who like beasts to the market were driven
Now walk—and in songs make the air resound
Hail then all hail to the glorious morning,
Let Christians rejoice with the myriads released
Let those who have fought in a righteous cause
Now shout for the night of oppression has ceased

GOV CURTIN'S MESSAGE.—The message of the Governor of Pennsylvania is contained in the Philadelphia papers of the 7th of January. The following is a synopsis of it:

The message of Governor Curtin is almost exclusively devoted to State affairs. He recommends compensation to those who suffered by the rebel raid. Including the three months volunteers, Pennsylvania has furnished the Government more than two hundred thousand men since the breaking out of the rebellion, besides some fifty thousand who are in the service or actually ready for it as volunteer militia, under the call of the 11th September last, making two hundred and fifty thousand men Pennsylvania has sent to the service.—He says necessary steps should forthwith be commenced to amend the Constitution, so as to give the right of suffrage to citizens who are thus excluded. He also says that the people of Pennsylvania feel that on the preservation of the Union and the suppression of this most causeless and wicked rebellion depends the honor, interest and future welfare of the Commonwealth. They will never tolerate schemes for destroying the Government of the United States, or for forming separate confederacies or any other schemes for creating confusion and ending in comforting traitors in arms against their country. The State of Pennsylvania has furnished more men for the defense of our institutions, and lost more by the casualties of war, than any other State. Her people intend by the blessings of God that this rebellion shall be suppressed, and will not be turned from their settled purpose by the wiles of masked enemies of the vacillation of false friends. On the contrary they will, as is their right, insist that competency, integrity, intellect, earnestness and vigor shall be employed in the public service, to preserve the Government and maintain the unity of the country.

THE SEXTON AND THE MAJOR GENERAL.—The New York Saturday *Courier* tells this anecdote of one of the United States Generals.

A short time ago there was a funeral in that very fashionable house of worship, Grace Church, on Broadway. A gentleman, wearing a decidedly seedy overcoat, entered and took a conspicuous seat in the vicinity of the pulpit, and it is needless to say he attracted the immediate attention of Brown, the distinguished, ornamental and ceremonious sexton, who is not apt to tolerate any act calculated to infringe upon his personal dignity. He gently approached and requested the intruder to remove to one of the free seats, which were nearer to the door. The owner of the shabby overcoat, though evidently surprised, obeyed without hesitation. Shortly after a young lieutenant, in all the pride and pomp of a new uniform, entered the church and took a seat in the same pew, casting, as he passed, a supercilious glance upon the unfortunate individual who was so inconsiderate as to visit Grace Church in an unseemly garb. A hymn was read, and as the audience arose to their feet, the objectionable garment was removed, displaying the stars denoting the rank of a Major-General. The effect was instantaneous. The young officer with prompt obsequiousness extended his hymn book simultaneously with a lady, who was prompted to the same act of courtesy, while the astonished Brown, discovering the blunder he had committed, attempted to repair it by inviting the distinguished stranger to resume his former place. Gen Banks quietly declined these civilities, and was evidently impressed with the idea that with some people dress makes the Major General.

STRATEGY.—The New York Evening *Post* of the 5th of January thus touches up the embryonic Napoleons of the Union armies:

It is said, however, to be the characteristic foible of immature genius that it should at tempt the grandest things first—your nascent poet beginning always with an epic and your young painter with nothing short of a great historical composition—so, we suppose, it is necessary that our raw military capacity should work off its early fervors in vast continental combinations. But having tried the thing no less than three times—and each time with indifferent success—is it not worth while to come down to less ambitious designs and more effective executions? There is some thing only too imposing, we know, in these vast schemes, both to the Government and the people. The imagination is delighted to contemplate movements that cover a space of thousands upon thousands of square miles, to follow the track of ocean expeditions which put the Armada of old time to the blush to listen breathlessly from day to day to the ringing encounter of a quarter of a million of armed men, to hear it, in the phrase of the day, thundering all around the sky and to anticipate fondly as the certain consequence of this wonderful effort, the sudden, overwhelming, final extinction of the most gigantic and fiendish rebellion upon record. But such stupendous plans seldom fulfil their promises. Either they miscarry in an essential point, or it is found wholly impossible to execute them with that simultaneousness and concert of action which alone renders them worthy of trial.

INOPERATIVE.—The act of the Washington Territory Legislature forbidding the discounting of the currency of the United States, is thus treated of by the Washington *Statesman*:

So long as greenbacks could be bought up at 15 per cent discount in those States, (the Atlantic States) and sold here at par they would be made an article of merchandise and all the gold and silver of the Territory would be exchanged for them. We would not like to be swindled out of 15 cents on every dollar for the benefit of any State or person, and we believe the people generally look at it in this light. Until a law by Congress regulates this currency in such manner that gold and silver cannot be made a premium over them, it is useless for any State or Territory to attempt it. When we have a general law upon the subject which will compel the brokers of Wall street to receive greenbacks at the same value they do coin, then, if necessary, the States or Territories may reasonably follow with their enactments. So long as the merchants of the East depreciate treasury notes, those of San Francisco are compelled to do likewise, and as long as the merchants of San Francisco will only give 80 or 85 cents on the dollar for them it cannot be expected that those of Oregon and Washington Territory can give any more.

ARRESTED.—John P. Kennedy the Provost Marshal of New York has been arrested by order of Gov Seymour on the charge of having illegally imprisoned citizens of the State of New York. The Police Commissioners of the City of New York have been suspended from their functions by the Governor of the State. Upon this subject the New York *Tribune*, of the 5th of January, remarks:

It is not our province to find fault with the lawfully constituted authorities for being in haste in well doing. Provided the thing be well, the more haste there is the better. It is rather in evil acts than in good that bombastic Administrations have hitherto extinguished themselves, and we shall be excedingly disposed to congratulate that of the new Governor of this State that is recognized promptness of official action in entering upon its proper duties. If therefore the Police Commissioners of this city to have been derelict of duty, he can, in a legal manner and before the proper legal authorities convict them of such dereliction we shall have no fault to find with him for summarily acting upon that purpose.

GEN MCCLELLAN'S MOVEMENTS.—It is confidently believed by the friends of Gen McClellan that he will be shortly employed in a high military station. The N. Y. *Baltimore* New York correspondence of the 7th of January, contains the following in regard to him:

Gen McClellan is in New York, where he is ordered to make his headquarters for the present, and several officers of his old staff of rank were ordered to report to him before joining Burnside's command. This fact slight though it is, tends to confirm the growing conviction that the Executive intends hereafter to make use of the military sagacity and skill of McClellan, even though for considerations of policy he did not see it best to his old position of commander in chief, even in that now occupied by Gen Halleck. Old Forney's official organ remarked a day or two since that Gen Burnside will have command of the army for the present, which from the expression may or may not imply that when active operations are to commence, some one else is to lead the Union forces to victory.

Proclamation by the Governor

EXECUTIVE OFFICE, PORTLAND, OREGON, January 6, 1863.

By the President of the United States, through Brigadier General George Wright, commanding the Department of the Pacific, and Brigadier General Benjamin Alvord commanding the District of Oregon, I have been requested to raise six additional companies required to complete the 1st Regiment of Cavalry, Oregon Volunteers. They will be mustered during Spring on the frontiers of this State and Washington Territory, and for inspection against the Snake Indians who have so long been meditatively engaged in robbing emigrants and murdering our fellow citizens. I cannot doubt that the citizens of Oregon who have always promptly responded to any demand for their military services will in like manner respond to this call, thereby showing their loyalty to the Government and aiding in chastising murdering bands of Indians which infest our frontiers.

The enlistments, when united will be supplied with arms by the United States, it being understood that they will be mounted or not as shall be deemed advisable by the Government.

Propositions to raise a whole company which will furnish their own horses and horse equipments, may be entertained. The men are to be horses entitled to fifty cents a day for the use and risk of their horses and horse equipments.

Each company will consist of one hundred enlisted men, and when mustered into the service of the United States for three years, unless sooner discharged.

Recruiting offices will be immediately opened at Portland, Dalles City, and perhaps at other places. By the Governor

ADDISON C. GIBBS.

CHAS. Y. REED, Adjutant General.
